

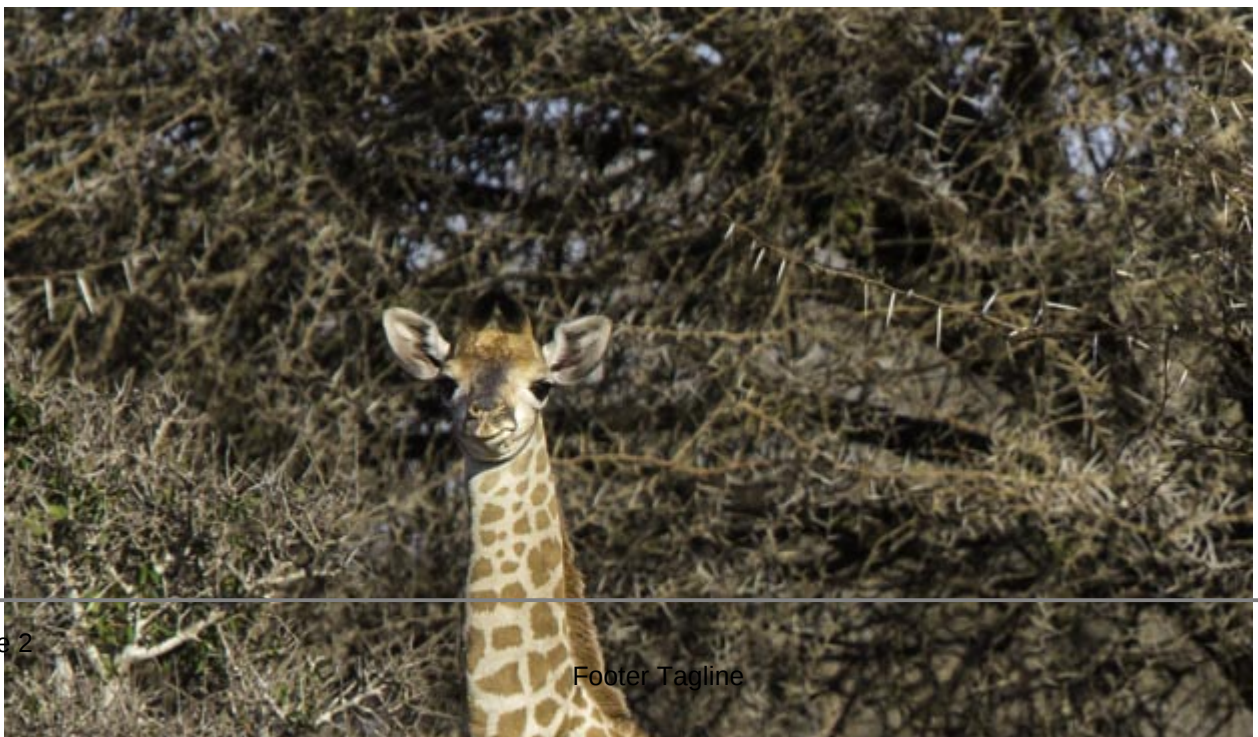

Photographing Giraffes

Description

Our 2nd safari group has had some really great wildlife encounters. The giraffes have been especially easy to photograph. I thought I would feature them with a special gallery. All of these images were taken in the first 2 days of safari and many taken right at the lodge.

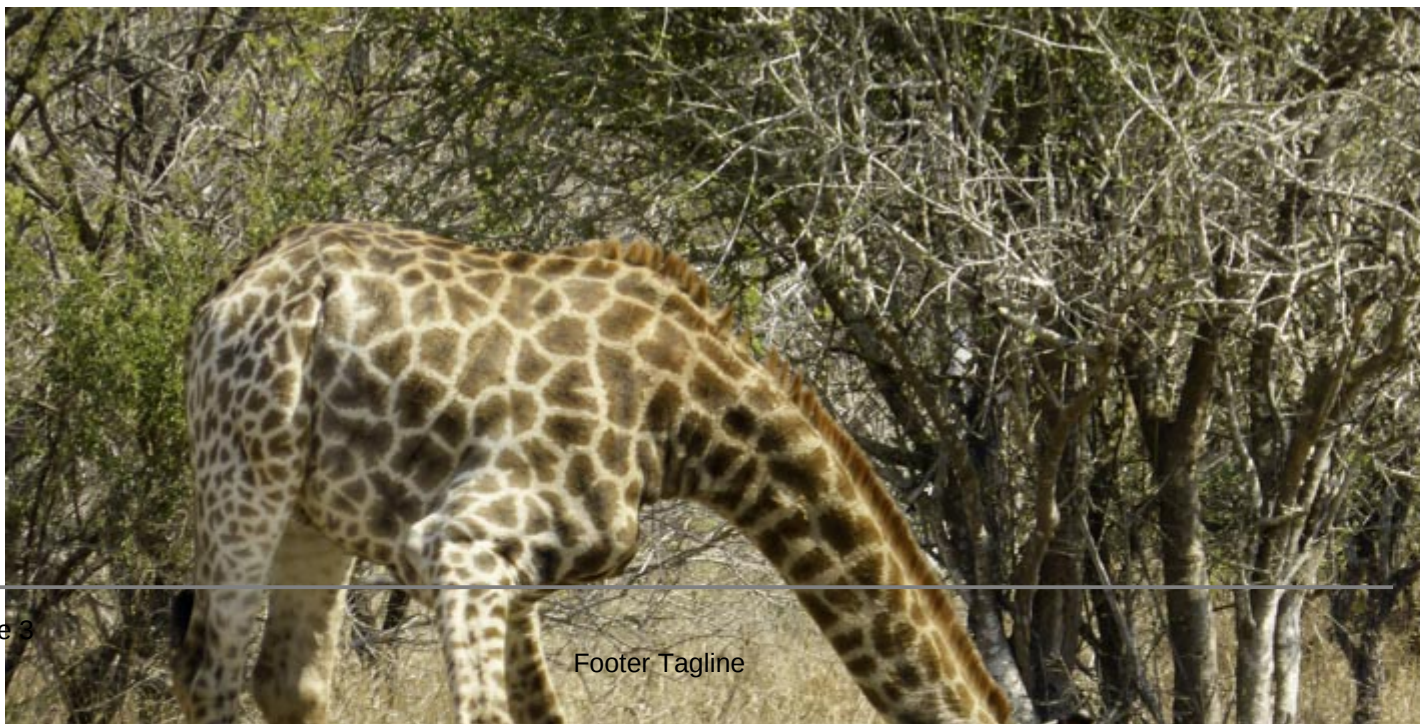

A guest gets close and low angle shots

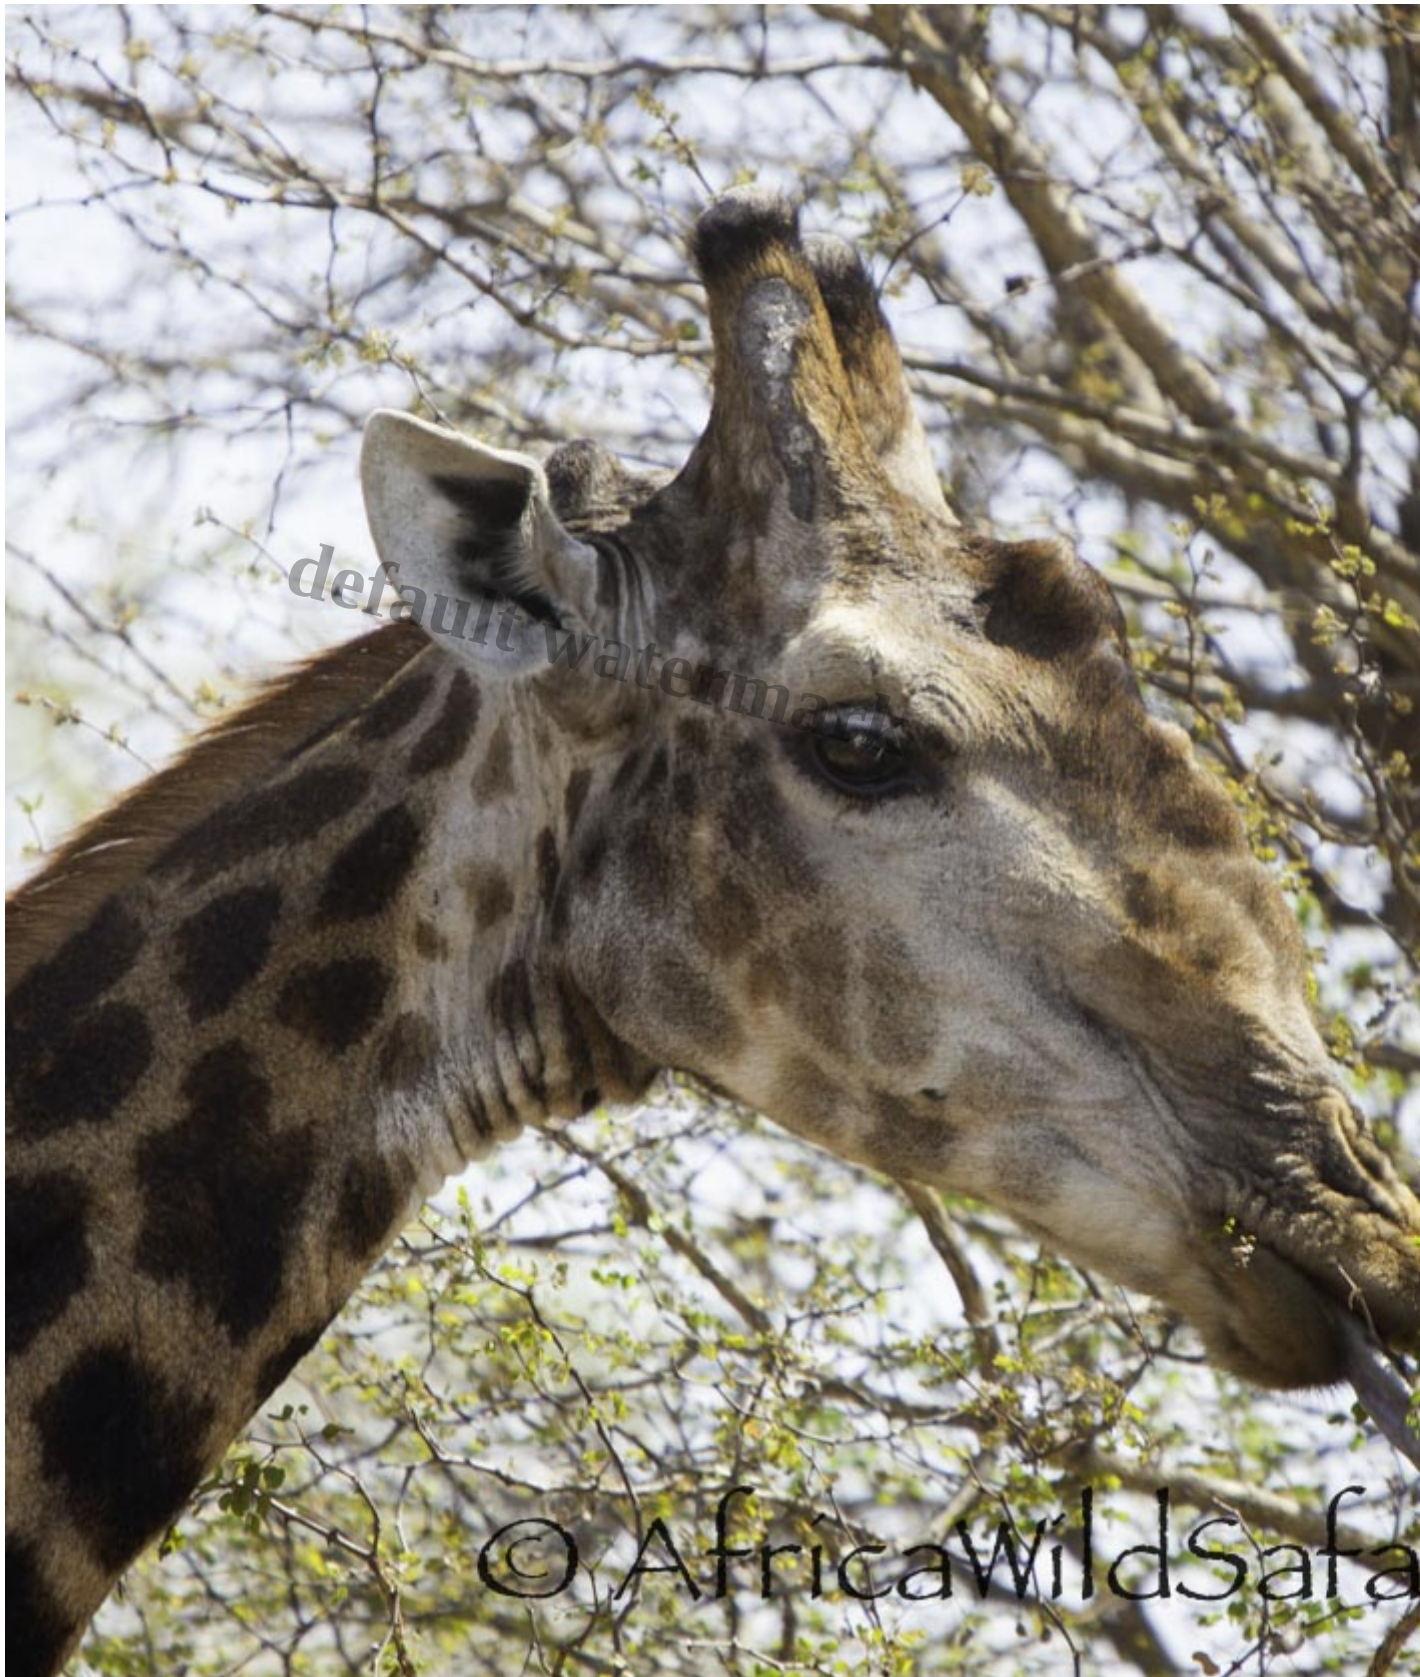

A baby giraffe aged 2 weeks

Giraffes look at us as we sit on the deck by the pool

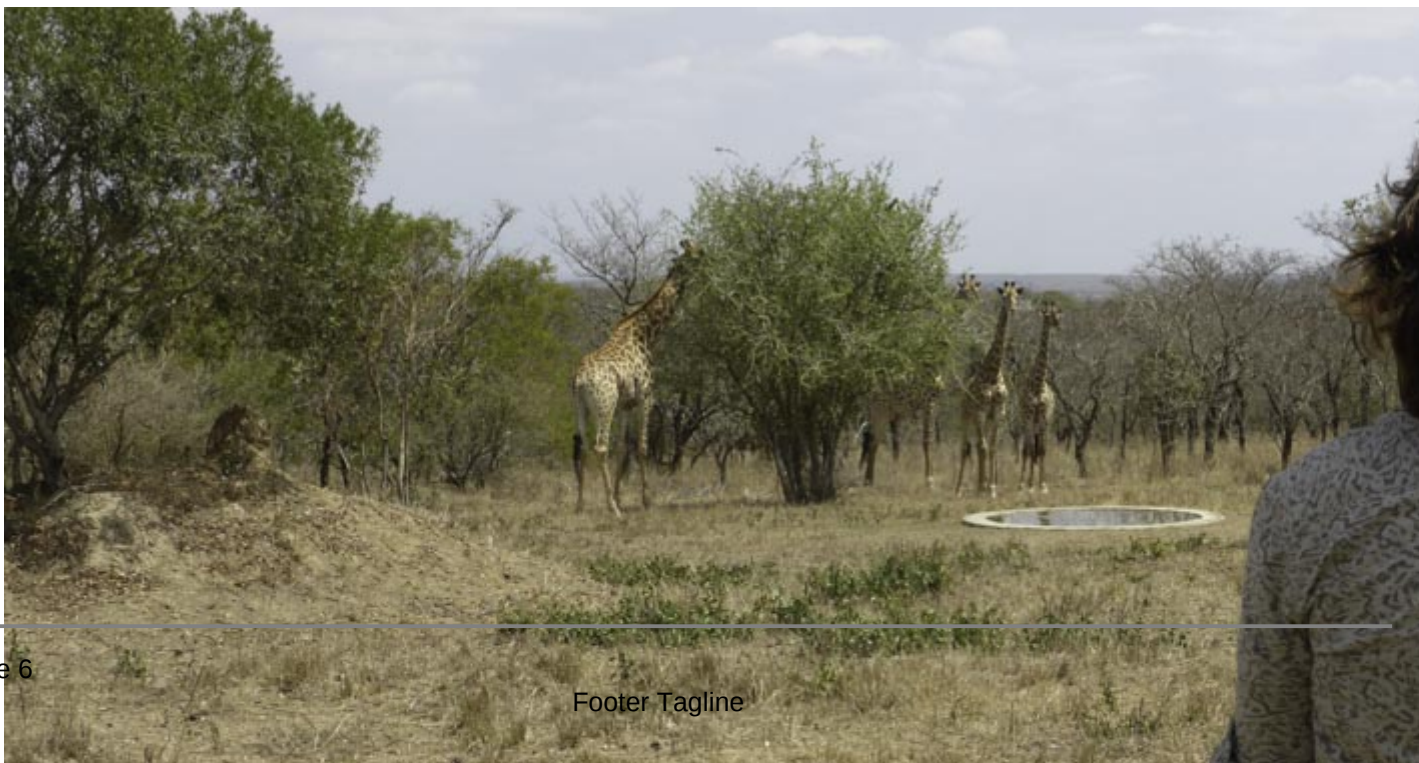

Giraffes must spread their legs to get low enough to drink

Using its tongue to wrap around the thorns then pull the leaves off

A baby giraffe aged 1+ month

A guest photographs giraffe drinking at the water hole
