

New Tree House Complete at Tree House Safari Lodge

Description

We are very proud to announce a new addition to Bona Ntaba Tree House Lodge. Our 4th tree house is complete and ready for guests.

The ensuite bathroom with tub and outside shower with a view

The new tree house has spectacular views of the mountains with comfortable hand-made wooden deck chairs for watching the sunset with a drink in hand. Soak in the spa tub or catch more views from the outside shower. The thatched roof and wood floors give you a sense of adventure with ample protection from weather all the while catching a nice cooling breeze.

Our safari guests will enjoy several nights on our Nature Conservancy in the tree houses where they will enjoy game viewing and game drives during the day, roaming plains game species while they relax at the tree houses, and delicious meals in our boma under the stars. After dinner we enjoy listening and spotting for night creatures at the watering hole just off our deck and pool.

Most guests say they miss Bona Ntaba and its food once we move on to the Sabi reserve .

While not hosting one of our photo safaris, the lodge hosts independent travelers, mostly South Africans, who like to self cater their meals (do their own cooking). For them, we are making a special private experience with an outdoor kitchen and braai area added to the new tree house.
